heartfulness
advancing in love

"Gita is eternal. Its only purpose is to bring about a certain state of mind that can clearly guide one amongst various choices. Hence, the Gita, to my understanding should be introduced as early as possible in a child's life."

In the beginning it is rote recitation but, this recitation gives them so much confidence. They may not understand the actual application in life, nevertheless it creates a level of consciousness and awareness in them that some sort of a footprint is created in their psyche."

- Daaji
